

Hello Lindsey Park Community Association,

I am writing to inform you of an upcoming engagement opportunity in Lindsey Park community. This is our second round of engagement, and our project team is studying the barriers and opportunities to make it easier for Calgarians to travel to the MNP Community & Sport Centre (formally known as the Repsol Sport Centre).

In November of last year, we completed Phase 1 of public engagement for the project. We asked for feedback about sidewalks, accessibility, traffic calming, pathways and protected wheeling lanes, community art, safety, and more. We took what we heard and have developed concepts for key areas near the MNP Community & Sport Centre. We are asking for input on these improvement concepts to help further develop potential accessibility improvement options.

Beginning on **May 17- June 7, 2024** we will be collecting feedback through the City's online engage portal at [Engage.calgary.ca/mnpaccess](https://engage.calgary.ca/mnpaccess). Residents who are unable to submit feedback through the online engagement portal can call 311 to have a member of the project team reach out to them. The project team will also be at the main entrance of the MNP Community & Sport Centre (2225 Macleod Trail S.E.) to answer questions on the following dates:

Saturday, May 25th: 12:00 PM - 3:00 PM

Thursday, May 30th: 4:00 PM - 7:00 PM

Project Timeline:

- November 2023 - Phase 1 Public Engagement, Identification
- December 2023 - What We Heard Report
- May 2024 - Phase 2 Public Engagement, Design Concepts
- June 2024 - What We Heard Report
- Summer 2024 - Finalize report and strategy

It would be great if you could help us get word out by sharing this information and the attached poster to your residents. If you have any questions or would like to discuss this project further, I would be happy to meet to provide more details. For more information, and for project updates, please go to [Engage.calgary.ca/mnpaccess](https://engage.calgary.ca/mnpaccess).

Thank you,

Jia Cheng, MSc, MLA, AALA , CSLA
